## **DECORATIVE ITEMS**

For any of these activities, you can leave the items plain or decorate them. Combine different things such as buttons and glitter or sequins and yarn. Let the children's creativity surprise you!

## **TAMBOURINE**

2 paper plates  
stapler or glue  
hole punch  
string  
jingle bells  
crayons  
dried beans or peas

Staple or glue two paper plates together, facing each other. Using a hole punch, make holes around the plates and tie jingle bells to the holes with string. Just before tying it all together, add your dried beans or peas. Decorate the tambourine with crayons.

Shake to play.

Note: Heavy duty paper plates may be more durable for this craft.

Safety note: If using a stapler, an adult should do this. When finished, be sure to cover the staples with scotch tape.

## **CHIMES**

ruler or stick  
washers  
nail polish  
string  
mixing spoon

Hang the washers from the ruler or stick with pieces of string by wrapping the string around the ruler or stick and securing. Strike the washers with the mixing spoon to play.

Note: You can make this craft colorful by painting the washers first with different color nail polishes, such as red, gold, glittery, etc. Parents should supervise this part of the activity closely.

## **DRUM**

empty oatmeal box with cover  
yarn  
pen  
2 pencils  
2 spools  
construction paper  
crayons

Before beginning, you can decorate the oatmeal box with construction paper and/or crayons for a colorful effect.

Place the cover on the box. Use a pen to make a hole in the center of the cover and in the center of the bottom of the box. Through these holes, pull a piece of yarn long enough to hang around child's neck and down to their waist.

For the drumsticks, place the spools at the ends of the pencils, secure with glue if necessary.

Beat to play.

yarn or ribbon

Tie the ribbon or yarn around the handles of the pot covers. To play, strike together.

## **XYLOPHONE**

tall glasses or jars  
water  
mixing spoon

Fill the glasses or jars with different amounts of water. The more water in the glass, the lower the pitch will be. Having less water in the glass or jar will raise the pitch.

Fold a piece of tissue paper over the tooth edge of a comb. To play, hum through the tissue paper.
